A Civita Castellana la lavorazione della ceramica ha origini antichissime, che risalgono all'epoca pre-romana. Nell'arco dei secoli le tecniche di lavorazione e i processi produttivi si sono affinati fino a raggiungere l'eccellenza. La ceramica di Scarabeo attraverso la sua produzione si ripropone di recuperare la tecnica dei vari processi lavorativi che tanto sono stati importanti nella tradizione della città. Ogni pezzo viene sottoposto a controlli e attenzioni continue, per correggere qualsiasi imperfezione, garantendo cosi qualità e bellezza, tanto da avere un apprezzamento crescente sia in ambito nazionale che internazionale.

In Civita Castellana, the ceramic processing industry has ancient origins dating back to the pre-Roman era. Over the course of the centuries, the processing techniques and production processes have evolved to reach high standards of excellence. With its ceramic products, Scarabeo aims to recover the techniques and various processing phases which have been so important for the city's heritage. All items are constantly checked and inspected in order to correct any imperfections and guarantee their quality and beauty; as a result, they are receiving growing appreciation at a national and international level.

Designer

Giovanna Talocci

Interior architect and designer since the 1970s. A natural curiosity for innovation, material research and technology, profound observation of the surrounding reality enabled her to design for prestigious companies, in completely unrelated fields. The same traits are now the pivotal elements in the work of the Talocci Design studio, which specialises in: product design, exhibition design, interior design, event organisation, integrated communication, art direction. Giovanna Talocci has received numerous acknowledgments, among them three ADI Design Index selections, four referrals at the Compasso D'Oro award and four Design Plus prizes. Alongside her design activities, she also works as cultural events curator and consultant for various trade exhibitions, anchor woman and guest of television programmes on design, and lecturer at universities and design schools. She has been a member of ADI (Industrial Design Association) since 1979 and of the ADI National Steering Committee since 2004. In addition, she was a member of the first Italian Council for Design.

Massimiliano Braconi

Designer, painter and sculptor, he diversified his activities to include the creation of artistic works, setting up of temporary architectural works and installations, and interior furnishing and design. In 2002, he opened his studio – situated in the Viterbo area – and quite naturally made his way into the sanitary ceramics production industry. He designs various collections for companies of the sector and collaborates with Scarabeo on a stable basis.

Chiara Valeri

Subsequently, in 1990, she earned a Diploma in Applied Arts from the "Ulderico Midossi" State Institute of Art in Civita Castellana. In 1990 she graduated from the Rome Fine Arts Academy with a degree in Theatre and Cinema Scenic Design with full marks. She initially embarked on a career in theatre scenic design and subsequently continued her studies in furnishing and design issues. She has created interior design projects for both private customers and retail businesses, while simultaneously collaborating with companies operating in the bathroom furnishing and crockery sectors for outfitting trade fair stands. Since 1997 she has been predominantly focusing on the industrial design sector by collaborating with companies operating in the Civita Castellana industrial scenario.

Lukasz Bertoli _ Graduated in Industrial Design at Politecnico di Milano, Lukasz soon began collaborating with Polidesign and TD studio to develop products for many famous italian companies such as Chicco and Gardesa. Davide Vercelli

Designer and Engineer Davide Vercelli founded his own firm in 2005 after being a researcher at the Politecnico di Torino. Ever since fond of project culture, of the ways how technological conception and production, communication and marketing strategies interfere in the making and the presentation of a product, he developed through the years a consistent series of co-operation jobs with design companies of different production fields.
A multi-disciplinary and cross-sectoral approach has enabled the studio over the years to support our customers as a global consultant, dealing with product, brand design, brand strategy and exibit.
From 2013 the studio follows and designs end the main collective event of Cersaie (Aggregati, Cer-Sea, Cer-Style, Cer-Sail, Milleluci, The sound of design), dedicated to contract and wellness.
Numerous are the teaching experiences in co-operation with different institutes and universities such as the Faculty of Design at the Milan Polytechnic University, and I.E.D..He boasts various international awards: thirteen selections for Adi Design Index, two at Compasso d'Oro, two awards at Young and Design, three Design Plus, one first prise at the International Design Awards, TWO Good Design Award AND ONE IF AND GERMAN DESIGN COUNCIL

Giovanni Calisti dedicates himself to art studies and in 1996 gets the qualification of "Maestro d'Arte della Ceramica" (Master of Ceramic Arts). His big passion flew into very appreciated painting and sculpture. He diversifies his activities from creation of artworks to modelling wash basins for a long-established factory in Civita Castellana named ICA. In 1974 he creates SCARABEO, a factory producing exclusively bathroom accessories that makes a name for itself in the European market in few years. In the middle of the nineties he designs different ranges of basins effortlessly. To this day, these ranges are some of the most appreciated of SCARABEO. Always searching for new stimulus, he charts new courses thanks to his clear strategy based on design.

SLIDE nasce dall'idea di ridurre la complessità della costruzione dei mobili da bagno attraverso l'utilizzo di elementi funzionali, come i ripiani e i supporti laterali, che fungono allo stesso tempo da unità di sostegno dell'intera struttura.

SLIDE presenta infatti dei supporti realizzati in lamiera verniciata e forati a laser per ospitare al loro interno ripiani in legno disponibili in diverse dimensioni, consentendo così di ricavare elementi a giorno o mensole d'appoggio attraverso molteplici possibilità di personalizzazione.

SLIDE reduces the complexity of bathroom furniture thanks to the use of functional elements, such as shelves and lateral supports, that act as supporting unit for the entire structure.

The painted sheet metal, laser drilled supports can receive wooden shelves of different size, thus creating open-fronted elements or shelves with an endless number of personalized options.

fold
by Emo Design

Il sistema FOLD, disegnato da Emo design per Scarabeo Ceramiche, nasce dalla volontà di completare la linea di mini lavabi attraverso una soluzione smart e di facile applicazione per ambienti piccoli come quelli in cui sono posizionati i piccoli lavabi Cube, Soft e Hung di Scarabeo.

Pur essendo pensato per ambienti compatti, FOLD offre un ottimo livello di funzionalità. Infatti, ciascuno dei fogli di lamiera ripiegati in diverse forme, può contenere o sorreggere quanto necessario per la cura quotidiana del corpo.

The idea behind creation of the FOLD system, designed by Emo Design for Scarabeo Ceramiche, is to complete the range of mini washbasins with a smart system that is easy to install in small bathrooms, such as those in which the Cube, Soft and Hung small washbasins of Scarabeo are positioned.

Although it has been designed for compact bathrooms, FOLD is extremely functional. Each of the metal sheets folded into different shapes can contain or support everything you need for everyday body care.

DecorART

by Scarabeo

Dopo il concept legato al mood DecorLab, che ha visto la creazione di suggestivi pattern decorativi applicabili alla ceramica, Scarabeo introduce una nuova modalità nell'interpretare questo materiale attraverso il percorso DecorArt.

DecorArt, anch'essa un'esplorazione sperimentale che sfrutta le valenze tecnologiche dei nuovi standard digitali, approda a dei risultati di livello stupefacente proponendo tre nuove finiture ispirate alla bellezza del marmo.

Marmo nero, bianco e travertino, con le loro classiche e raffinate sfumature, sono i nuovi decori che trasformano la ceramica in un materiale ad alto valore estetico, difficilmente distinguibile a livello visivo dalla pietra originale.

After the concept linked to the DecorLab mood, which saw the creation of evocative decorative patterns applicable to ceramics, Scarabeo introduces a new way of interpreting this material with the DecorArt project.

DecorArt is an experimental journey that exploits the technological values of the new digital standards, reaching amazing results and proposing three new finishes inspired by the beauty of marble.

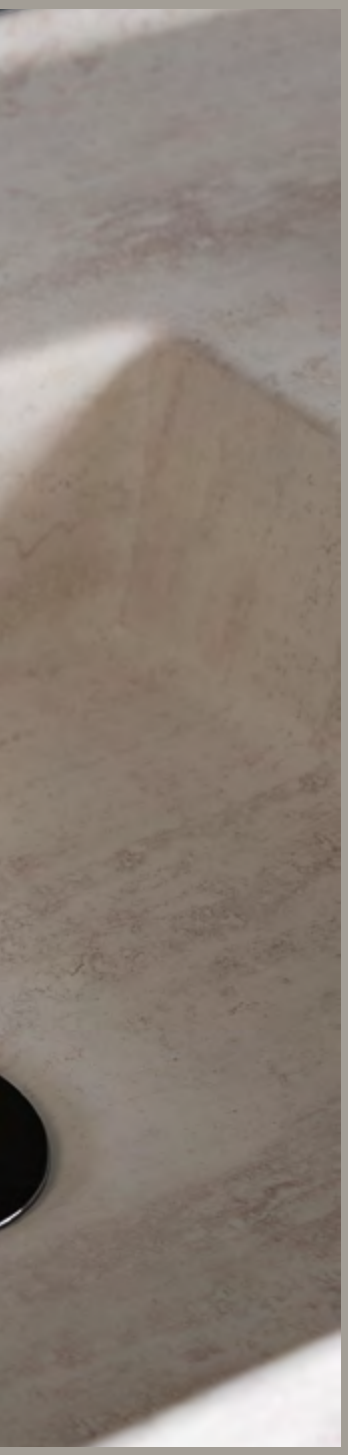

Black marble, white marble and travertine marble, with their classic and refined nuances, are the new decorations that transform ceramics into a material of high aesthetic value, which can be hardly distinguished from the original stone.

IT) Consigli per la pulizia e la manutenzione del bagno
Tutti i nostri prodotti, realizzati con materiali selezionati e sottoposti a tutti i controlli qualità, sono stati concepiti per durare a lungo nel tempo. Eventuali piccole alterazioni di colore o tono che si possono riscontrare tra gli oggetti sono sinonimo di produzione manuale, non industriale e garantiscono l'unicità del prodotto. Sono pertanto da considerate come caratteristiche di pregio e non difetti oggetto di contestazione. Un'accurata manutenzione ed alcuni piccoli accorgimenti permetteranno di conservare i sanitari sempre come nuovi, mantenendo intatte quelle caratteristiche estetiche e funzionali che determinano l'unicità e l'artigianalità dei prodotti Scarabeo. Il nostro consiglio è di utilizzare sempre una spugna morbida per la pulizia dei lavabi e sanitari e di evitare l'uso di sostanze abrasive, caustiche o aggressive che possono rovinare od opacizzare la ceramica. Per un'igiene più sicura e per rimuovere gli eventuali residui di calcare o di sapone è consigliabile procedere periodicamente ad una pulizia più approfondita utilizzando sempre e comunque un detergente non abrasivo. Un regolare lavaggio con acqua tiepida e sapone, avendo cura di asciugare le superfici con un panno morbido subito dopo l'uso ed una particolare attenzione a non usare oggetti appuntiti o particolarmente ruvidi, saranno sufficienti per mantenere in perfette condizioni il nostro prodotto nel vostro bagno.

EN) Advice on bathroom cleaning and maintenance
All our products are manufactured with carefully selected materials, undergo strict quality controls and are designed to last. The minor alterations in colour or shade of the various items are the result of manual and not industrial production and guarantee a unique product. They should therefore be considered as precious features and not defects to complain about. Careful maintenance and several simple actions ensure that sanitary ware remains as good as new and retains the visual and functional features that guarantee the uniqueness and craftsmanship of Scarabeo products. We suggest always using a damp sponge to clean the washbasins and sanitary ware. Avoid using abrasive, caustic or aggressive products that could damage or dull the ceramic. To ensure perfect hygiene and remove any traces of limescale or soap, it is recommended to clean them thoroughly every now and then, although again using a non-abrasive detergent. Wash our bathroom products regularly with warm water and soap and dry the surfaces thoroughly with a soft cloth after use, and also avoid using sharp or particularly rough objects, to ensure they remain in perfect condition.

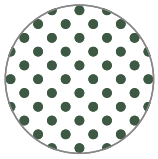

FR) Conseils pour le nettoyage et l'entretien de la salle de bain
Tous nos produits sont réalisés à l'aide de matériaux triés sur le volet et soumis à tous les contrôles de qualité nécessaires. Ils ont été conçus afin de résister à l'épreuve du temps. Les petites altérations de couleur ou de ton qui peuvent apparaître sont le résultat d'un processus de production à la main, non industriel. Elles garantissent le caractère unique du produit. Ce sont donc des critères de luxe et ne sont en aucun cas des défauts pouvant faire l'objet d'une réclamation. Un entretien minutieux et le respect de plusieurs conseils vous permettront de préserver votre salle de bain et tous les aspects esthétiques et fonctionnels qui confèrent aux produits Scarabeo leur caractère unique et artisanal. Nous vous conseillons donc d'utiliser toujours une éponge douce pour nettoyer les lavabos et les sanitaires. Evitez les produits abrasifs, caustiques ou agressifs qui pourraient endommager ou matifier la céramique. Pour un nettoyage en toute sécurité et pour éliminer les traces de calcaire ou de savon, procédez à un nettoyage plus approfondi à l'aide d'un détergent non abrasif en toutes circonstances. Effectuez un lavage régulier à l'eau tiède et au savon, en veillant à sécher les surfaces à l'aide d'un chiffon doux directement après utilisation. Veillez à ne pas utiliser d'objets pointus ou rugueux. Vous pourrez ainsi garantir l'état de nos produits et de votre salle de bain.

DE) Empfehlungen für die Reinigung und Instandhaltung des Bades
Alle unsere Produkte sind auf Langlebigkeit ausgelegt, da sie nur aus sorgfältig ausgewählten Materialien hergestellt und strengen Qualitätskontrollen unterzogen werden. Eventuelle geringfügige Farbtonabweichungen zwischen den einzelnen Produkten sind Merkmale der handwerklichen Verarbeitung und garantieren deren Einzigartigkeit. Daher sind solche Abweichungen Qualitätsmerkmale und stellen keine Mängel dar, die Gegenstand von Reklamationen sein könnten. Bei korrekter Pflege und richtiger Behandlung bleiben Ihre Sanitärprodukte über lange Zeit in einem einwandfreien Zustand und erhalten die ästhetischen und funktionellen Eigenschaften, die für die Einzigartigkeit und handwerkliche Verarbeitung der Produkte von Scarabeo charakteristisch sind. Wir empfehlen die Reinigung der Waschbecken und Sanitärprodukte mit einem weichen Schwamm. Vermeiden Sie bitte den Einsatz von Scheuermitteln, ätzenden oder auf sonstige Weise aggressiven Substanzen, die die Oberflächen der Keramik beschädigen oder ihren Glanz beeinträchtigen können. Für eine sichere Hygiene und zur Entfernung von Kalkablagerungen oder Seifenresten empfehlen wir, regelmäßig eine gründlichere Reinigung mit einem grundsätzlich nicht scheuernden Reinigungsmittel durchzuführen. Regelmäßiges Spülen mit lauwarmem Wasser und Seife, nachfolgendes Trocknen mit einem weichen Tuch und das Vermeiden von Kontakt mit spitzen oder sehr rauen Gegenständen ist völlig ausreichend, um die Sanitärprodukte in Ihrem Bad in einem perfekten Zustand zu erhalten.

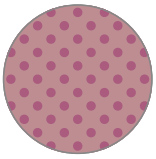

ES) Consejos para la limpieza y el mantenimiento del baño
Todos nuestros productos, realizados con materiales seleccionados y sometidos a todos los controles de calidad, han sido diseñados para durar a lo largo del tiempo. Es posible que se produzcan pequeñas alteraciones del color o del tono, características de la elaboración manual, no industrial, garantía del carácter único del producto. Por eso deben considerarse características de valor y no defectos de fabricación a reclamar. El mantenimiento preciso y algunas pequeñas precauciones permiten mantener los sanitarios como nuevos, sin que se alteren las características estéticas y funcionales que los hacen únicos y aseguran el carácter artesanal de los productos Scarabeo. Nuestro consejo es utilizar siempre una esponja suave para la limpieza de los lavabos y sanitarios y evitar el uso de sustancias abrasivas, cáusticas o agresivas que podrían arruinar la cerámica y quitarle brillo. Para una higiene más segura y para quitar posibles residuos calcáreos o de jabón se aconseja periódicamente realizar una limpieza más profunda empleando un detergente no abrasivo. Un lavado frecuente con agua tibia y jabón, teniendo cuidado de secar las superficies con un paño blando inmediatamente después del uso, sin utilizar objetos puntiagudos o ásperos, será suficiente para mantener el sanitario en perfectas condiciones.

RU) Рекомендации по очистке и уходу за ванной комнатой
Все наши товары, выполненные из тщательно отобранных материалов, прошедших весь необходимый контроль качества, были разработаны таким образом, чтобы обеспечить длительный срок эксплуатации. Небольшие отклонения цвета или тона, которые, возможно, Вы встретите, являются следствием того, что товары не были произведены в серийном производстве, но являются результатом ручной работы, и свидетельствуют об их уникальности. Поэтому они должны рассматриваться как ценные характеристики, а не дефекты, являющиеся поводом для рекламации. Благодаря тщательному уходу и соблюдению некоторых несложных мер предосторожности, Ваши сантехнические изделия всегда будут как новые, и сохранятся эстетические и эксплуатационные характеристики, которые определяют уникальность и самобытность, присущие товарам компании Scarabeo. Рекомендуем Вам при очистке умывальников и сантехнических изделий всегда использовать мягкую губку и не прибегать к использованию абразивных, едких или агрессивных веществ, которые могут нанести вред керамическим изделиям или привести к помутнению их покрытия. Для обеспечения более строгой гигиены, а также для удаления возможных остатков известковых отложений или мыла рекомендуется периодически выполнять углубленную очистку, всегда используя для этого неабразивное чистящее средство. С тем, чтобы наши сантехнические товары, которые Вы выбрали для ванной комнаты, сохранили свое прекрасное состояние, будет достаточно регулярной мойки теплой водой с мылом и аккуратной протирки поверхностей мягкой тканевой салфеткой сразу же после использования. Необходимо также тщательно следить за тем, что Вы не используете заостренные или очень шероховатые предметы.
