COMPANY

Scarabeo Ceramiche è un'azienda italiana specializzata nella produzione di sanitari e arredo bagno innovativi e dal design originale. Dal 1974 mette a frutto la propria capacità di dare forma alla ceramica e trasformarla in lavabi e sanitari dallo stile unico e inconfondibile conquistando nel tempo un successo di carattere internazionale che ha portato il brand a posizionarsi come un vero e proprio punto di riferimento per chi cerca idee nuove con cui arredare il bagno. Il saper interpretare il bagno offrendo design e funzionalità ha da sempre contraddistinto l'indole dell'azienda: competenza ed esperienza al servizio di una grande squadra che opera partendo da un'idea che, grazie alle infinite possibilità di lavorazione della ceramica, prende forma e si tramuta in un arredo completo, efficiente, esteticamente appagante e in grado di definire con carattere la personalità di un bagno. La continua ricerca di novità e la capacità di sapersi costantemente evolvere in accordo con le diverse esigenze manifestate dal mercato hanno permesso a Scarabeo di comporre una gamma molto ampia e sempre in crescita non solo di lavabi e sanitari ma anche di complementi di arredo ed accessori unici e di qualità impeccabile.

Scarabeo Ceramiche is an Italian company specialized in the production of innovative and original sanitary ware and bathroom furniture. Since 1974 it has been making use of its own ability to give shape to ceramic and turn it into washbasins and WCs with a unique style. This has allowed to gain over time an international success that has made the brand a real reference point for people searching new ideas for their own bathroom.

The interpretation of the bathroom by giving design and functionality has always characterized the nature of the company: competence and expertise in the service of a great team acting by starting from an idea which, thanks to the unlimited possibilities of the manufacturing of ceramic, takes shape and turns into a complete, efficient, aesthetically satisfying fitting that can strongly define the character of a bathroom. The continuous search for innovation and the ability to constantly evolve according to the different needs of the markets allowed Scarabeo to create a very wide and ever-growing range of washbasins, WC pans and even unique bathroom furniture and accessories of impeccable quality.

ARTIGIANALI

A Civita Castellana la lavorazione della ceramica ha origini antichissime, che risalgono all'epoca pre-romana, nell'arco dei secoli le tecniche di lavorazione e i processi produttivi si sono affinati fino a raggiungere l'eccellenza. La ceramica di Scarabeo attraverso la sua produzione si ripropone di recuperare la tecnica dei vari processi lavorativi che tanto sono stati importanti nella tradizione della città. Ogni pezzo viene sottoposto a controlli e attenzioni continue, per correggere qualsiasi imperfezione, garantendo così qualità e bellezza, tanto da avere un apprezzamento crescente sia in ambito nazionale che internazionale.

In Civita Castellana, the ceramic processing industry has ancient origins dating back to the pre-Roman era. Over the course of the centuries, the processing techniques and production processes have evolved to reach high standards of excellence. With its ceramic products, Scarabeo aims to recover the techniques and various processing phases which have been so important for the city's heritage. All items are constantly checked and inspected in order to correct any imperfections and guarantee their quality and beauty; as a result, they are receiving growing appreciation at a national and international level.

DESIGNER

**Giovanna
Talocci**

Interior architect and designer since the 1970s. A natural curiosity for innovation, material research and technology, profound observation of the surrounding reality enabled her to design for prestigious companies, in completely unrelated fields. The same traits are now the pivotal elements in the work of the Talocci Design studio, which specialises in: product design, exhibition design, interior design, event organisation, integrated communication, art direction. Giovanna Talocci has received numerous acknowledgments, among them three ADI Design Index selections, four referrals at the Compasso D'Oro award and four Design Plus prizes. Alongside her design activities, she also works as cultural events curator and consultant for various trade exhibitions, anchor woman and guest of television programmes on design, and lecturer at universities and design schools. She has been a member of ADI (Industrial Design Association) since 1979 and of the ADI National Steering Committee since 2004. In addition, she was a member of the first Italian Council for Design.

Designer, painter and sculptor, he diversified his activities to include the creation of artistic works, setting up of temporary architectural works and installations, and interior furnishing and design. In 2002, he opened his studio - situated in the Viterbo area - and quite naturally made his way into the sanitary ceramics production industry. He designs various collections for companies of the sector and collaborates with Scarabeo on a stable basis.

**Chiara
Valeri**

**Massimiliano
Braconi**

Born in Rome on 21st March 1969, she completed her artistic studies by earning the title of "Master Ceramics Artist" in 1988, after which she began to dedicate herself to artistic ceramics. Subsequently, in 1990, she earned a Diploma in Applied Arts from the "Ulterico Midossi" State Institute of Art in Civita Castellana. In 1990 she graduated from the Rome Fine Arts Academy with a degree in Theatre and Cinema Scenic Design with full marks. She initially embarked on a career in theatre scenic design and subsequently continued her studies in furnishing and design issues. She has created interior design projects for both private customers and retail businesses, while simultaneously collaborating with companies operating in the bathroom furnishing and crockery sectors for outfitting trade fair stands. Since 1997 she has been predominantly focusing on the industrial design sector by collaborating with companies operating in the Civita Castellana industrial scenario.

Lukasz Bertoli _ Graduated in Industrial Design at Politecnico di Milano, Lukasz soon began collaborating with Polidesign and TD studio to develop products for many famous Italian companies such as Chicco and Gardesana. From 2004 to 2008 he was a senior industrial designer at GP designpartners in Vienna where his responsibilities included designing products for brands like Philips, Siemens, Citroen, Doppelmayr, Vienna Acoustics, Tchibo, NXP, Boesendorfer, HEI, Conlastic.

Carlo Ciciliot _ Born in 1982 Carlo graduated in International Relationships at Università degli Studi di Bologna with a Master's in Organization and Economic Development (MOSE) at Profingest Management School. After an important experience at the marketing office of a well established group in the construction sector, he became account manager at Emo design consultancy in 2009.

Davide Vercelli

Giovanni Calisti dedicates himself to art studies and in 1996 gets the qualification of "Maestro d'Arte della Ceramica" (Master of Ceramic Arts). His big passion flew into very appreciated painting and sculpture. He diversifies his activities from creation of artworks to modelling wash basins for a long-established factory in Civita Castellana named ICA. In 1974 he creates SCARABEO, a factory producing exclusively bathroom accessories that makes a name for itself in the European market in few years. In the middle of the nineties he designs different ranges of basins effortlessly. To this day, these ranges are some of the most appreciated of SCARABEO. Always searching for new stimulus, he charts new courses thanks to his clear strategy based on design.

Emo Design

Designer and Engineer Davide Vercelli founded his own firm in 2005 after being a researcher at the Politecnico di Torino. Ever since fond of project culture, of the ways how technological conception and production, communication and marketing strategies interfere in the making and the presentation of a product, he developed through the years a consistent series of co-operation jobs with design companies of different production fields.

A multi-disciplinary and cross-sectoral approach has enabled the studio over the years to support our customers as a global consultant, dealing with product, brand design, brand strategy and exhibit.

From 2013 the studio follows and designs end the main collective event of Cersaie (Aggregati, Cer-Sea, Cer-Style, Cer-Sail, Milleluci, The sound of design), dedicated to contract and wellness.

Numerous are the teaching experiences in co-operation with different institutes and universities such as the Faculty of Design at the Milan Polytechnic University, and I.E.D.. He boasts various international awards: thirteen selections for Adi Design Index, two at Compasso d'Oro, two awards at Young and Design, three Design Plus, one first prize at the International Design Awards, TWO Good Design Award AND ONE IF AND GERMAN DESIGN COUNCIL

- UNI EN 14688 per lavabi
- UNI EN 997 per WC
- UNI EN 14528 per bidet

Scarabeo ha studiato un sistema che garantisce lo scarico dei suoi WC sospesi, terra e monoblocco con 4,5 litri d'acqua e meno.

The following are the reference standards relative to the CE marking:

- UNI EN 14688 for washbasins
- UNI EN 997 for WCs
- UNI EN 14528 for bidets

Scarabeo studied a new system granting the drainage for its wall hung, floor-standing and monoblock WC with 4.5 litres and even less.

Les normes fonctionnelles de référence pour le marquage CE sont:

- UNI EN 14688 pour les lavabos
- UNI EN 997 pour les WC
- UNI EN 14528 pour les bidets

Scarabeo a étudié un nouveau système qui assure la chasse de ses cuvettes suspendues, à poser ou monobloc avec 4.5 litres d'eau et moins.

Die Bezugsnormen für das CE-Zeichen sind:

- UNI EN 14688 für Waschtische
- UNI EN 997 für WC
- UNI EN 14528 für Bidet

Scarabeo hat für seine Hänge-, Stand- und Kombinations-WCs ein System entwickelt, das nur 4,5 Liter Wasser pro Spülung verbraucht und weniger.

Las normas funcionales de referencia para la marca CE son:

- UNI EN 14688 para lavabos
- UNI EN 997 para inodoros
- UNI EN 14528 para bidé

Scarabeo ha estudiado un sistema que garantiza el desagüe de sus inodoros suspendidos, tierra y mono bloque con 4,5 litros de agua y menos.

Справочные рабочие нормативы для маркировки CE:

- UNI EN 14688 для моек
- UNI EN 997 для унитазов
- UNI EN 14528 для биде

Scarabeo разработала систему, обеспечивающую слив ваших подвесных, напольных и моноблочных унитазов емкостью 4,5 литров воды и меньше.

CERTIFICATIONS

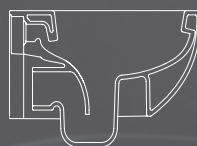

Lavabi a norma di sicurezza, comfort e garanzia delle prestazioni nel tempo. A colonna, sospesi, da incasso o semi incasso, l'offerta dei lavabi e dei sanitari in genere è ormai molto diversificata, sia come tipologia dei materiali utilizzati, sia come forme, stile e design. Ma la Scarabeo da una cosa non può prescindere: dalle prestazioni che questi prodotti devono poter garantire nel tempo. La Scarabeo con l'acquisizione del marchio CE certifica che il prodotto è stato realizzato con materiali testati e con procedure rispondenti agli standard di sicurezza riconosciuti ormai da anni. Il marchio CE è stato istituito per fornire adeguate garanzie del rispetto, da parte del fabbricante, di tutti gli obblighi riguardanti la conformità di un prodotto alle direttive comunitarie e la sua applicazione (obbligatoria) introduce delle prove ferree a cui sottoporre i prodotti.

Conforming washbasins entail: safety, comfort and guaranteed long-lasting performance. Whether column, hunging, built-in or semi built-in, our washbasin offer and sanitary ware offer in general has become highly diversified in terms of variety of materials used, forms, style and design. But there is one aspect that Scarabeo cannot overlook: the performance that these products must ensure over time. By obtaining the CE marking, Scarabeo certifies that the product is manufactured with tested materials and procedures conforming to safety standards that have been widely recognised for several years. The CE marking was introduced to enable manufacturers to adequately guarantee the product's conformity to all the obligations outlined in European Community Directives, and its application (which is mandatory) introduces stringent tests to which products must be subjected.

"Ho ricercato un oggetto semplice, elegante, sinuoso e senza forma ispirandomi a semplici elementi urbani. Ho pensato ad un elemento adattabile al frenetico nostro consumismo ma fisicamente ricercato. Un prodotto dalle forme accoglienti ma generose, in previsione di un nuovo minimalismo umano".

"I envisaged a simple, elegant, sinuous and shapeless object inspired by simple urban elements. The element I conceived is physically sophisticated yet suited to our frenetic consumerism. A product with large, embracing forms that reflects a new human minimalism".

Nasce TEOREMA 2.0, il lavabo con un'anima sottile dalle dimensioni generose. Un inconsueto e piacevole contrasto tra l'ampiezza del bacino e la leggerezza dei suoi bordi che misurano soltanto pochi millimetri. Un design elegante ed essenziale che coniuga bellezza e praticità. Adatto ad ogni tipologia di abitazione, racchiude in sé quelle caratteristiche funzionali dettate dalle proprie dimensioni che lo rendono un oggetto dalla massima fruibilità anche nelle case dotate di un solo bagno.

The time has come for TEOREMA 2.0, the large-size washbasin with a slim core. The wide bowl offers an appealing and unusual contrast to the light edges, which are only a few millimetres thick. Its elegant, sober design reflects the merging of beauty and practicality. Suitable for any type of home environment, its dimensional characteristics make it a highly practical item that be installed even in homes having a single bathroom.

Da mini a maxi in una sola collezione. Questo è il mood che ha ispirato EMO Design nella progettazione di questa nuova serie di lavabi. Dalle linee gentili e raffinate, i lavabi Glam nascono dalla volontà di mostrare il know-how di Scarabeo Ceramiche attraverso la creazione di prodotti in ceramica dai bordi sottilissimi ma con una forte resistenza. Il design pulito e allineato alle tendenze contemporanee del mercato, rende la collezione trasversale ed adattabile a diverse situazioni sia in ambito abitativo che per la comunità o il contract.

From mini to maxi in only one collection. This is the mood that inspired EMO Design for this new washbasin range. With its gentle, refined lines, the Glam collection proves the know-how of Scarabeo Ceramiche through the creation of ceramic products with extremely thin, yet very resistant edges. In line with contemporary market trends, the clean design makes the collection easy to integrate in multiple settings, for residential, community and contract applications.

Design Award

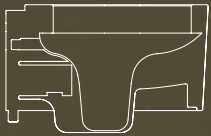

DESIGN PLUS

La serie Bucket si distingue per le sue forme che richiamano il tema del secchio/ secchiello, qui declinato in diverse dimensioni e decori. L'oggetto, simbolo del gioco e della semplicità, si trasforma in complemento per il bagno diventando lavabo o lavamano, dove il manico ha la funzione di portasciugamano sia nella versione con attacco a parete sia in quella d'appoggio.

BUCKET line distinguishes itself by its shape bringing to mind just the bucket, in different sizes and decorations. This objet symbolizing the game and the simplicity turns into an essential part of the bathroom becoming wash basin or hand basin where the handle is a towel rail (both for the wall hung and for the supported basins).

L'ampia scelta decorativa, dal total white che risalta le forme ai decori geometrici, evocativi o ironici (come il pesciolino che salta dall'acqua), la rende adatta a spazi pubblici: palestre, ristoranti, locali e scuole, ma anche a bagni per la camera dei ragazzi o per chi ama osare con un arredo del bagno piuttosto informale.

Thanks to the wide offer of decorations, beginning from total white bringing out shapes to geometric, evocative or ironic decorations (like the small fish jumping out of water) it is fit for public places like gyms, restaurants, pubs and schools, but even for child bathrooms or for those who love daring with an informal style in their own bathroom.

La struttura avvolgente, che ricorda vecchi recipienti di tempi passati. Linee sobrie e compatte per un progetto d'arredo completo. E il materiale, la ceramica, lavorata con grande attenzione garantendo un prodotto finale dalle forme estremamente pulite ed ergonomiche.

The enveloping structure calls to mind the old recipients from a bygone age. Simple and compact lines are used for a complete decorative design. The material, ceramic, is processed with great care, guaranteeing an end product which displays extremely clean and ergonomic contours.

Dal mistero dell'isola di Pasqua nasce la linea di lavabi Moai. Simili a monoliti di pietra levigati dalla forza dell'acqua, Moai con le sue linee morbide e sinuose riesce a coniugare l'estetica naturale delle cose e l'innovazione del design contemporaneo.

The Moai range of washbasins takes its inspiration from the mysterious Easter Island. With its soft and shapely lines reminiscent of the stone monoliths polished by the force of the water, Moai successfully combines its natural appearance with an innovative and contemporary design.

Sottilissimo e impercettibile, VEIL è il nuovo lavabo di Scarabeo Ceramiche capace di stravolgere la cultura del comune bagno presentandosi come un manufatto raffinato, atipico e limpido, dotato di caparbia personalità. La sua forma nasce da un obiettivo ben definito: la ricerca del vero limite materico. VEIL si presenta infatti come un sottile foglio ceramico sospeso dove lo spessore, così visibilmente ridotto, è il raggiungimento di quello che è il limite ceramico, oltre il quale può esserci solo l'ineseguibile.

Subtle and imperceptible, VEIL is the new wash basin by Scarabeo Ceramiche, it revolutionises the concept of a simple bathroom presenting itself like an refined, atypical and limpid object with its own strong-willed personality. Its shape is the result of a clearly defined objective: seeking the limits of the material from which it is made. VEIL is a thin suspended ceramic sheet where the thickness, visibly limited, is the achievement of the ceramic limit, beyond which there is only the impracticable.

La collezione Fuji di Emo design, composta da lavabo in ceramica, specchio e consolle, è grafica ed essenziale. Il linguaggio progettuale interpreta il continuo fluire dell'acqua attraverso linee convesse che si risolvono in superfici morbide, accarezzando l'utente. La forma armonica e precisa del lavabo è ripresa nei complementi del sistema quali gli specchi e la consolle in tondino di ferro.

Fuji collection of Emo design, composed by ceramic washbasin, mirror and console table, it is graphic and essential. The project design interprets the continuous flowing of water through convex lines becoming soft surfaces, caressing the user. The harmonic and precise shape of the washbasin is taken up again in the complements of the system, such as mirrors and iron rod console table.

Mizu, disegnato da Emo design, è un lavabo in ceramica dalla raffinata eleganza. Rappresenta una proposta innovativa che ripensa l'architettura di questo oggetto, qui pensato come un volume composto da più componenti che definiscono la "scocca esterna". In essa il taglio della calotta superiore che disegna la grafica dell'oggetto, svolge la primaria funzione di drenare l'acqua all'interno, dove si trova lo scarico.

Mizu, designed by Emo design, is an elegant ceramic washbasin. It represents an innovative solution that rethinks the object's traditional architecture. Here the washbasin is thought like a volume composed of many components that define the external shell. The central cut of the superior cap, which designs the object's graphic, drains the water in the bowl, where the drain hole is hidden.

SOFT

Rigoroso e pulito, il lavabo Soft mette in evidenza la competenza dell'azienda nella lavorazione della ceramica che qui raggiunge un elevato livello di definizione. Il bordo netto e sottile si pone in netto contrasto con la delicatezza della vasca, caratterizzata da linee morbide che accompagnano l'acqua nel suo fluire.

With its rigorous and clean design, the Soft washbasin highlights the company's ability in use of ceramic, which achieves a high level of definition here. The clean and extremely thin edge stands in sharp contrast with the delicate and smooth lines of the basin which accompany the flow of water.

HUNG

Hung è funzionalità ed ottimizzazione degli spazi. Disegnato da Emo design, questo mini lavabo in ceramica dalla forma rettangolare ospita nella sua struttura principale un foro portasciugamani, mettendo a disposizione tutto il necessario in pochissimo spazio.

Hung is the ideal and functional solution for optimising space. Designed by Emo design, this rectangular mini ceramic washbasin also incorporates a towel rail hole in its main structure, ensuring everything is within easy reach in an extremely small space.

CUBE

Il mini lavabo Cube, disegnato da Emo design, appare come un cubo di ceramica sospeso. Un lavabo dalla forte connotazione estetica che nonostante le dimensioni ridotte non dimentica la funzionalità, presentando una buona profondità della vasca che asseconda il lavaggio delle mani.

The Cube mini washbasin, designed by Emo design, appears like a suspended ceramic cube. The washbasin reveals a distinct aesthetic dimension without renouncing functionality, regardless of its compact dimensions: hand washing is facilitated by the rather large depth of the bowl.

Design come espressione di una concezione nuova di vita, più libera. Thin-Line semplice e lineare in tutti i suoi modelli si caratterizza con spessori sottili rinunciando ad inutili orpelli. Rigorosi nella forma e nella funzione, danno vita ad ambienti caldi e moderni, creando un'atmosfera unica anche nei bagni più piccoli.

Design as an expression of a new more liberal concept of life. All Thin-Line models are simple and linear with a slenderness which turns its back on useless embellishments. With its exact lines and function, it breathes life into warm and modern spaces, creating a unique atmosphere even in the smallest of bathrooms.

Matty lo si può guardare da diverse angolazioni ma, a prescindere dal punto di vista, rimane un indiscusso classico. La matita di Giovanni Calisti ha disegnato geometrie morbide e rotonde, che richiamano forme di un tempo.

Matty can be looked at from various angles, but no matter which one it is always an indisputable classic. Giovanni Calisti's pencil has designed soft, rounded lines, which remind us of the forms of days gone by.

Ogni innovazione è l'incontro di un'idea e di un'esigenza e da questo incontro nascono i lavabi Kong, dal disegno moderno, per l'architettura contemporanea. Massimiliano Braconi e Giovanni Calisti hanno creato nuovi spazi per contenere l'acqua, senza nascondere. Un concetto di bagno per chi vive la casa da abitatore.

Innovation is always the result of an idea and a need, and this is how the Kong washbasins were created with their modern design for modern architecture. Massimiliano Braconi and Calisti Giovanni have created new containers for water, without hiding anything. A bathroom concept for those who live in their home.

"Tsunami", forse l'unica parola giapponese utilizzata e introdotta in tutte le lingue del mondo, termine che viene dato ad un'onda gigantesca di altezza anomala. Punto di partenza e fonte di ispirazione, ha permesso a Giovanni Calisti e Massimiliano Braconi, di disegnare questo lavabo essenziale: assolutamente necessario; ma anche sobrio nelle forme e senza orpelli inutili coniugando fra loro i termini utilità e semplicità.

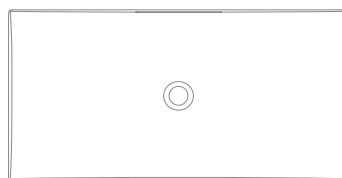

Tsunami: possibly the only Japanese word that has been introduced and is utilised in all the world's languages, the term used to define a giant wave of unusual height. This is the starting point and source of inspiration that allowed Giovanni Calisti and Massimiliano Braconi to design this essential washbasin: absolutely necessary, yet with sober shapes and without useless tinsel, a perfect marriage between utility and simplicity.

Dallo studio della SCARABEO nasce la collezione Square di ispirazione inglese reinterpretata per chi vive la casa di oggi. Grazie alla sua linea semplice e sobria ma di grande impatto che li caratterizza, non solo sono esteticamente piacevoli, ma anche ergonomici, dotati di ampi bacini, comodi da usare.

Fresh from the SCARABEO studio comes the Square collection taking its inspiration from England and reinterpreted for those who live in today's home. Thanks to its simple and modest yet highly impressive lines, not only is it attractive but also ergonomic, boasting amply sized washbasins which make for comfortable use.

Arco è un lavabo ad incasso che si presta a molte configurazioni ed utilizzi, declinato in due misure, 60 o 80 cm. Le linee leggermente arcuate, da cui il nome del prodotto, il pianetto interno ribassato e il bordo estremamente sottile conferiscono al lavabo eleganza e leggerezza e lo rendono adatto ad ambientazioni sia classiche che di design. Il bacino ampio e profondo risponde alle nuove tendenze di arredo del bagno e permette di utilizzarlo non solo come lavabo d'arredo ma anche come vaschetta per lavare qualche capo di biancheria. Il profilo del lavabo, caratterizzato da un bordo leggermente bombato, sottolinea il disegno del prodotto e permette di incassare una parte della profondità restituendo leggerezza.

Arco is a recessed washbasin which has many configurations and uses, available in two sizes, 60 or 80 cm. The slightly arched lines, from which the product gets its name, the lowered inner surface and the extremely slender edge make the washbasin elegant and light, and also suitable for both classic and design surroundings. The wide and deep basin reflect current design trends for bathrooms and allow it to be used not only as a washbasin but also as a tub for washing clothes. The profile of the washbasin, with its slightly convex edge, emphasises the design of the product and allows it to be partially recessed, giving a lighter appearance.

Etra dal carattere essenziale accoglie con semplicità l'acqua, elemento di vita e indiscussa protagonista di benessere. Etra disegnata con mestria fonde audaci geometrie per dar vita a uno stile contemporaneo e dallo spirito easy-chic.

Etra welcomes water - the element of life and the undisputed protagonist of wellness - with simplicity and a minimalist approach. Thanks to its skillful design it blends bold geometries, giving life to a contemporary style with an easy-chic spirit.

Un design razionale ed essenziale esprime la ricerca della purezza delle forme. Da questo concetto lo studio Valeri ha progettato Seventy dalle linee semplici e chic.

A logical and basic design expresses our search for pure shapes. The Valeri studio used this as its main concept when designing Seventy, with its simple and chic lines.

Fonte d'ispirazione la natura, dove l'armonia regna assoluta. Shape nasce per assomigliarvi: nell'eleganza delle sue forme morbide e sinuose.

Inspired by nature, where harmony reigns supreme. Shape was created to resemble its users: elegant in its soft and curved contours.

Tra sperimentazione ed evoluzione, Scarabeo Ceramiche apre la strada verso un mercato inesplorato con il lavello da cucina in ceramica UP.

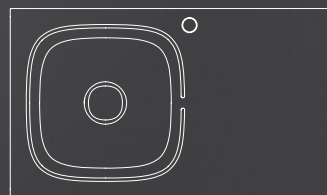

Up è un'innovazione ispirata alla tradizione, una proposta in contrasto con lo stile minimal delle cucine più diffuse che, allo stesso tempo, si sposa con esse, diventando l'oggetto decorativo della cucina, il protagonista della scena con un tocco unico e personale. Linee femminili e raffinate disegnano un bordo rialzato che delimita la zona lavaggio da quella di appoggio, mentre la fessura che interrompe questo segno armonico, è utile a far defluire l'acqua verso il centro del lavello.

Scarabeo Ceramiche is using trials and development to open the way to an unexplored market, with the UP ceramic kitchen sink. Up is an innovative product inspired by tradition, a proposal in contrast with the minimalist style of the most widely available kitchens, but also in harmony with them. It becomes a decorative element, the central focus offering a unique and personal touch. Feminine and refined lines form a raised edge between the sink and the surface area, and the gap which breaks up this harmonious line assists the water flow towards the centre of the sink.

ECO WATER SAVING PLUS

La continua ricerca e lo sviluppo di nuovi prodotti con innovativi sistemi di scarico ha consentito la creazione di **ECO WATER SAVING PLUS**, grazie al quale i nostri Wc scaricano utilizzando **solo 2/4lt d'acqua**.

Continual research and development into new products with innovative flush systems has led to creation of **ECO WATER SAVING plus**, thanks to which our WCs **only use 2/4l water** for flushing.

La recherche continue et le développement de nouveaux produits dotés de systèmes d'évacuation novateurs ont permis la création d'**ECO WATER SAVING**, grâce auquel une chasse **n'utilise que 2 à 4 litres d'eau**.

Die konstante Erforschung und Entwicklung neuer Produkte mit innovativen Abflusssystemen ermöglichte die Kreation des Systems **ECO WATER SAVING Plus**, dank dem unsere WCs beim Spülen **nur 2 oder 4 Liter Wasser** verbrauchen.

La continua actividad de investigación y desarrollo de nuevos productos con innovadores sistemas de desagüe ha permitido la creación de **ECO WATER SAVING plus**, con el cual nuestros WC se descargan utilizando **sólo 2-4 litros de agua**.

Непрерывающиеся исследования и разработки новых изделий с применением инновационных систем слива открыли возможности для создания такой системы, как **ECO WATER SAVING plus**, благодаря использованию которой в наших унитазах при сливе используется только **2–4 л воды**.

NOTA BENE

1) Il sistema di scarico piletta deve sempre essere ancorato al lavabo pertanto il foro consigliato da praticare sul top dove vengono appoggiati i lavabi deve avere un diametro necessario a consentire tale operazione. Per i nostri prodotti si prega di ricavare le dovute dimensioni dei fori da praticare sui top dalla sezione Caratteristiche tecniche del catalogo generale.

2) Il diametro del foro consigliato da praticare sul top per il passaggio delle connessioni dell'acqua al rubinetto deve essere non inferiore a 40 mm di diametro. Si prega di controllare prima di praticare il foro anche la scheda tecnica del rubinetto che viene utilizzato.

* **Specifica Certificazioni e conformità alla norma UNI EN 997 - 14528 riguardante lo scarico dei WC e bidet relativa marchiatura CE.** La documentazione completa è disponibile a richiesta presso i nostri uffici.

NOTE

1) The plughole drainage system must always be fixed to the washbasin; it is therefore recommended that the holes made in the tops on which the washbasins are mounted have a diameter large enough to accommodate this. As far as our products are concerned, please refer to the Technical Characteristics section of the General Catalogue to obtain details of the specific measurements necessary for the holes made in the tops.

2) The minimum recommended diameter of the hole to be made in the top for the passage of the water connections to the tap is 40 mm. Please make sure you also check the technical specification of the tap used before making the hole.

* **Specification outlining certifications and conformity with standard UNI EN 997 - 14528 (relating to WC waste pipes and bidet) and corresponding CE branding.**

The complete documentation is available from our offices on request.

REMARQUE

1) La bonde d'écoulement doit toujours être fixée au lavabo. Pour effectuer cette opération, il est donc recommandé de découper sur le plan une ouverture du diamètre prévu pour le lavabo. À la section Caractéristiques techniques de notre catalogue général, vous pourrez trouver les dimensions requises pour les ouvertures à réaliser sur les plans.

2) Il est conseillé de percer un trou pour le passage des raccords de l'arrivée d'eau au robinet d'un diamètre d'au moins 40 mm. Veuillez à vérifier les cotes de l'orifice précisées sur la fiche technique du robinet utilisé

* **Caractéristiques techniques et certificat de conformité (UNI EN 997 - 14528) pour la décharge des WC et bidet et label CE.**

La documentation complète est disponible sur demande en nos bureaux.

HINWEIS

1) Das Abflusssystem muss immer am Waschbecken befestigt werden, daher sollte die Bohrung im Top, auf dem die Waschbecken gestellt werden, einen ausreichenden Durchmesser haben, um den Anschluss auszuführen. Die notwendigen Durchmesser der Bohrungen im Top für unsere Produkte entnehmen Sie bitte dem Abschnitt Technische Eigenschaften in unserem Katalog.

2) Die im Top für die Durchleitung der Wasseranschlüsse benötigte Bohrung darf nicht weniger als 40 mm Durchmesser aufweisen. Bitte prüfen Sie, bevor sie das Loch bohren, auch das Datenblatt des Wasserhahns, der installiert wird.

* **Zertifizierung und Konformität mit der Norm UNI EN 997 - 14528 bezüglich der WC-Abflüsse und bidet und entsprechende CE-Kennzeichnung.**

Die komplette Dokumentation kann in unseren Büros angefordert werden.

ADVERTENCIA

1) El sistema de desagüe del sumidero debe estar siempre anclado al lavabo; por tanto, se aconseja efectuar en la encimera donde se apoyarán los lavabos un orificio con el diámetro suficiente para que pueda efectuarse esa operación. En el caso de nuestros productos, las medidas de los orificios que se han de practicar se encuentran en el apartado "Características técnicas" del Catálogo general.

2) En la encimera, para pasar las conexiones de agua al grifo, se practicará un orificio de diámetro no inferior a 40 mm. Antes de perforar, consúltese la ficha técnica del grifo que se ha de utilizar.

* **Especificación de certificaciones y conformidad con la norma UNI EN 997 relativa a la descarga del inodoro y a la correspondiente marca CE** La documentación completa está a disposición en nuestras oficinas.

ВАЖНАЯ ИНФОРМАЦИЯ

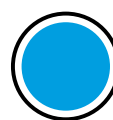

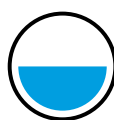

1) Система слива с пробкой должна всегда быть закреплена на раковине умывальника, в связи с чем рекомендуется, чтобы отверстие в столешнице, на которую должна опираться раковина умывальника, имело достаточно большой диаметр, обеспечивающий выполнение этой операции. Что касается нашей продукции, см. раздел «Технические характеристики» основного каталога, где приведены соответствующие размеры отверстий, выполняемых в столешнице.

2) Рекомендуемый размер отверстия в столешнице для прохождения соединительных шлангов подачи воды в кран должен составлять не менее 40 мм в диаметре. Прежде чем делать отверстие, рекомендуется свериться с техническими данными крана, который будет использоваться.

* **Технические условия на сертификацию и соответствие требованиям UNI EN 997–14528 в отношении слива унитаза и биде по маркировке CE.**

Полная документация доступна по запросу в офисах нашей компании.

IT) Consigli per la pulizia e la manutenzione del bagno

Tutti i nostri prodotti, realizzati con materiali selezionati e sottoposti a tutti i controlli qualità, sono stati concepiti per durare a lungo nel tempo. Eventuali piccole alterazioni di colore o tono che si possono riscontrare tra gli oggetti sono sinonimo di produzione manuale, non industriale e garantiscono l'unicità del prodotto. Sono pertanto da considerare come caratteristiche di pregio e non difetti oggetto di contestazione. Un'accurata manutenzione ed alcuni piccoli accorgimenti permetteranno di conservare i sanitari sempre come nuovi, mantenendo intatte quelle caratteristiche estetiche e funzionali che determinano l'unicità e l'artigianalità dei prodotti Scarabeo.

Il nostro consiglio è di utilizzare sempre una spugna morbida per la pulizia dei lavabi e sanitari e di evitare l'uso di sostanze abrasive, caustiche o aggressive che possono rovinare od opacizzare la ceramica. Per un'igiene più sicura e per rimuovere gli eventuali residui di calcare o di sapone è consigliabile procedere periodicamente ad una pulizia più approfondita utilizzando sempre e comunque un detergente non abrasivo. Un regolare lavaggio con acqua tiepida e sapone, avendo cura di asciugare le superfici con un panno morbido subito dopo l'uso ed una particolare attenzione a non usare oggetti appuntiti o particolarmente ruvidi, saranno sufficienti per mantenere in perfette condizioni il nostro prodotto nel vostro bagno.

EN) Advice on bathroom cleaning and maintenance

All our products are manufactured with carefully selected materials, undergo strict quality controls and are designed to last. The minor alterations in colour or shade of the various items are the result of manual and not industrial production and guarantee a unique product. They should therefore be considered as precious features and not defects to complain about. Careful maintenance and several simple actions ensure that sanitary ware remains as good as new and retains the visual and functional features that guarantee the uniqueness and craftsmanship of Scarabeo products.

We suggest always using a damp sponge to clean the washbasins and sanitary ware. Avoid using abrasive, caustic or aggressive products that could damage or dull the ceramic. To ensure perfect hygiene and remove any traces of limescale or soap, it is recommended to clean them thoroughly every now and then, although again using a non-abrasive detergent. Wash our bathroom products regularly with warm water and soap and dry the surfaces thoroughly with a soft cloth after use, and also avoid using sharp or particularly rough objects, to ensure they remain in perfect condition.

FR) Conseils pour le nettoyage et l'entretien de la salle de bain

Tous nos produits sont réalisés à l'aide de matériaux triés sur le volet et soumis à tous les contrôles de qualité nécessaires. Ils ont été conçus afin de résister à l'épreuve du temps. Les petites altérations de couleur ou de ton qui peuvent apparaître sont le résultat d'un processus de production à la main, non industriel. Elles garantissent le caractère unique du produit. Ce sont donc des critères de luxe et ne sont en aucun cas des défauts pouvant faire l'objet d'une réclamation. Un entretien minutieux et le respect de plusieurs conseils vous permettront de préserver votre salle de bain et tous les aspects esthétiques et fonctionnels qui confèrent aux produits Scarabeo leur caractère unique et artisanal.

Nous vous conseillons donc d'utiliser toujours une éponge douce pour nettoyer les lavabos et les sanitaires. Evitez les produits abrasifs, caustiques ou agressifs qui pourraient endommager ou matifier la céramique. Pour un nettoyage en toute sécurité et pour éliminer les traces de calcaire ou de savon, procédez à un nettoyage plus approfondi à l'aide d'un détergent non abrasif en toutes circonstances. Effectuez un lavage régulier à l'eau tiède et au savon, en veillant à sécher les surfaces à l'aide d'un chiffon doux directement après utilisation. Veillez à ne pas utiliser d'objets pointus ou rugueux. Vous pourrez ainsi garantir l'état de nos produits et de votre salle de bain.

DE) Empfehlungen für die Reinigung und Instandhaltung des Bades

Alle unsere Produkte sind auf Langlebigkeit ausgelegt, da sie nur aus sorgfältig ausgewählten Materialien hergestellt und strengen Qualitätskontrollen unterzogen werden. Eventuelle geringfügige Farbtonabweichungen zwischen den einzelnen Produkten sind Merkmale der handwerklichen Verarbeitung und garantieren deren Einzigartigkeit. Daher sind solche Abweichungen Qualitätsmerkmale und stellen keine Mängel dar, die Gegenstand von Reklamationen sein könnten. Bei korrekter Pflege und richtiger Behandlung bleiben Ihre Sanitärprodukte über lange Zeit in einem einwandfreien Zustand und erhalten die ästhetischen und funktionellen Eigenschaften, die für die Einzigartigkeit und handwerkliche Verarbeitung der Produkte von Scarabeo charakteristisch sind. Wir empfehlen die Reinigung der Waschbecken und Sanitärprodukte mit einem weichen Schwamm. Vermeiden Sie bitte den Einsatz von Scheuermitteln, ätzenden oder auf sonstige Weise aggressiven Substanzen, die die Oberflächen der Keramik beschädigen oder ihren Glanz beeinträchtigen können. Für eine sichere Hygiene und zur Entfernung von Kalkablagerungen oder Seifenresten empfehlen wir, regelmäßig eine gründlichere Reinigung mit einem grundsätzlich nicht scheuernden Reinigungsmittel durchzuführen. Regelmäßiges Spülen mit lauwarmem Wasser und Seife, nachfolgendes Trocknen mit einem weichen Tuch und das Vermeiden von Kontakt mit spitzen oder sehr rauen Gegenständen ist völlig ausreichend, um die Sanitärprodukte in Ihrem Bad in einem perfekten Zustand zu erhalten.

ES) Consejos para la limpieza y el mantenimiento del baño

Todos nuestros productos, realizados con materiales seleccionados y sometidos a todos los controles de calidad, han sido diseñados para durar a lo largo del tiempo. Es posible que se produzcan pequeñas alteraciones del color o del tono, características de la elaboración manual, no industrial, garantía del carácter único del producto. Por eso deben considerarse características de valor y no defectos de fabricación a reclamar. El mantenimiento preciso y algunas pequeñas precauciones permiten mantener los sanitarios como nuevos, sin que se alteren las características estéticas y funcionales que los hacen únicos y aseguran el carácter artesanal de los productos Scarabeo. Nuestro consejo es utilizar siempre una esponja suave para la limpieza de los lavabos y sanitarios y evitar el uso de sustancias abrasivas, cáusticas o agresivas que podrían aruinar la cerámica y quitarle brillo. Para una higiene más segura y para quitar posibles residuos calcáreos o de jabón se aconseja periódicamente realizar una limpieza más profunda empleando un detergente no abrasivo. Un lavado frecuente con agua tibia y jabón, teniendo cuidado de secar las superficies con un paño blando inmediatamente después del uso, sin utilizar objetos puntiagudos o ásperos, será suficiente para mantener el sanitario en perfectas condiciones.

RU) Рекомендации по очистке и уходу за ванной комнатой

Все наши товары, выполненные из тщательно отобранных материалов, прошедших весь необходимый контроль качества, были разработаны таким образом, чтобы обеспечить длительный срок эксплуатации. Небольшие отклонения цвета или тона, которые, возможно, Вы встретите, являются следствием того, что товары не были произведены в серийном производстве, но являются результатом ручной работы, и свидетельствуют об их уникальности. Поэтому они должны рассматриваться как ценные характеристики, а не дефекты, являющиеся поводом для рекламации. Благодаря тщательному уходу и соблюдению некоторых несложных мер предосторожности, Ваши сантехнические изделия всегда будут как новые, и сохранятся эстетические и эксплуатационные характеристики, которые определяют уникальность и самобытность, присущие товарам компании Scarabeo. Рекомендуем Вам при очистке умывальников и сантехнических изделий всегда использовать мягкую губку и не прибегать к использованию абразивных, едких или агрессивных веществ, которые могут нанести вред керамическим изделиям или привести к помутнению их покрытия. Для обеспечения более строгой гигиены, а также для удаления возможных остатков известковых отложений или мыла рекомендуется периодически выполнять углубленную очистку, всегда используя для этого неабразивное чистящее средство. С тем, чтобы наши сантехнические товары, которые Вы выбрали для ванной комнаты, сохранили свое прекрасное состояние, будет достаточно регулярной мойки теплой водой с мылом и аккуратной протирки поверхностей мягкой тканевой салфеткой сразу же после использования. Необходимо также тщательно следить за тем, что Вы не используете заостренные или очень шероховатые предметы.
