COMFORTHEIGHT
Height of the spout allows easy filling of large pots.

FOOTCONTROL
Just touch the bottom side of the cabinet with a gentle tap of your foot to turn the faucet ON and OFF.

SPEEDCLEAN
Remove limescale with a single wipe.

ENHANCED WATER
Superior-quality water directly from the kitchen faucet – saving time, money and the environment.

PULL-OUT MOUSSEUR
Increases the operating radius of your faucet.

FORWARD ROTATING LEVER
Forward rotating lever prevents the lever hitting the backsplash.

PULL-OUT MOUSSEUR SPRAY
Increases operating radius of the faucet and offers different sprays.

PROFESSIONAL-SPRAY
Features a 360° spring arm and easy switching between the spray and mousseur.

ZERO (Lead+Nickel Free)
No contact of water with lead and nickel due to isolated inner water ways.

EASYEXCHANGE
The aerator is easy to install and de-install using just a coin.

PULL-OUT DUAL SPRAY
Increases operating radius of the faucet and offers easy switching between mousseur and the spray.

GROHFLEXX
With flexible, hygienic GrohFlexx kitchen santoprene hose.

REALSTEEL
Made of solid stainless steel, a robust material with anti-bacterial properties.

SWIVELSTOP
Limited turn angle prevents flooding.

EASYDOCK M
Integrated magnet for seamless docking of the spray head.

EASYTOUCH
Just touch the faucet at any point with your wrist, elbow or just your fingertip to turn the faucet ON and OFF.

EASYDOCK
Guaranteed easy retraction and smooth docking for your pull-out spray head, every time.

AQUAGUIDE
Variable spout end for adjustment of water flow.

HANDS ON FEATURES

Accommodating your every wish and desire, GROHE watersystems and kitchen faucets include user-centric features and ingenious details that make all the difference. More choice, more comfort and more flexibility; which is why our products are such a pleasure to use.

GROHE SILKMOVE
Smoothest handling for effortless precision and ultimate comfort for a lifetime.

GROHE KITCHEN FEATURES

Accommodating your every wish and desire, GROHE watersystem and kitchen faucets include user-centric features and ingenious details that make all the difference. More choice, more comfort and more flexibility: which is why our products are such a pleasure to use.

GROHE SMARTCONTROL

SmartControl kitchen puts precise control at your fingertips. Instead of a lever you start and stop the water flow by pushing the button on the spray – great for those moments when you have your hands full as it can be operated just by your wrist or elbow. To control the flow just turn the valve, changing smoothly from an eco-flow to a powerful jet.

To adjust the water temperature, turn the valve at the body gently to the left or right. The pull-out spray head design gives you great flexibility, and with this feature available in three designs and 11 attractive finishes, the perfect model for your kitchen scheme is at your fingertips, too.

MAGNETIC DOCKING

Thanks to powerful integrated magnets the pull-out spray head retracts easily and smoothly to the perfect position every time after use.

GROHE EASYTOUCH

Kitchens are hands-on places, where multi-tasking is a must. Why not make life easier for yourself with a GROHE touch-activated faucet? We've developed a choice of two innovative solutions that let you control the flow of water without using your hands, making your kitchen more hygienic, convenient and instinctive to use. GROHE faucets can be activated with a simple touch of the wrist or elbow. Leave your hands free and keep your faucet sparkling clean. Change the way you control your kitchen with just a single touch.

The kitchen is the heart of your life at home – and let's face it, sometimes life gets messy. With GROHE's innovative EasyTouch faucets sticky fingers won't slow you down and cross-contamination is a thing of the past. Hidden GROHE technology lets you start and stop the flow of water with a single tap of your arm, wrist or the back of your hand, anywhere on the spout. No more greasy fingerprints or struggling to turn a lever with your elbow.

EASYTOUCH

Just touch the faucet at any point with your wrist, elbow or just your fingertip to turn the faucet ON and OFF.

Zedra Touch
Electronic sink mixer
C-Spout
with pull-out triple spray

TYPES OF SPOUTS

Our range of spout options let you combine comfort and convenience with great design flexibility. Our spouts come in a variety of heights, from a compact low spout for small spaces to a high spout perfect for filling pots, as well as in a choice of U-, C- or L-shape to perfectly suit your style. Need even more flexibility? Our spouts that swivel or feature pull-down spray heads offer extra reach, power and performance for busy kitchens.

POWERFUL SPRAY FUNCTIONS

Get some power behind your daily tasks with GROHE's range of professional and pull-out sprays. Enjoy an increased operating radius for maximum convenience, and on many models you can also switch between two spray functions for even greater flexibility. The GROHE EasyDock function with glideflex hose ensures the spray docks smoothly back into position, and on some professional spray models GROHE EasyDock M uses a magnet to guide the spray head back into place effortlessly, every time. When your work is done enjoy the easy-clean advantage of GROHE's SpeedClean feature – available on all pull-out sprays with two spray functions – that lets you clean limescale from the head with a simple sweep of your finger.

GROHE COMPOSITE

Durable and resilient, GROHE composite sinks use quartz, the hardest part of granite, to create a seamless sink that is resistant to scratches, dents, heat and stains, for a beautiful kitchen centerpiece tough enough for any job.

GROHE STAINLESS STEEL

Put sleek, strong, stainless steel at the heart of your kitchen with a GROHE kitchen sink. Our above-standard grade stainless steel offers great performance, crisp angles and generous capacity in a timeless, hardwearing material.

GROHE PVD

Made-to-last surfaces ranging from precious matt to shiny like a diamond. The special recipe to success lies in our long-lasting surface quality. GROHE uses state-of-the-art technology to deliver exceptional quality finishes. The physical vapour deposition (PVD) process ensures that the surface composition is three-times harder, delivering glistening gold or sophisticated stainless steel finishes. As well as being harder, the surface is also ten times more scratch resistant, so it can be cherished for a lifetime.

GROHE PVD

UNRIVALLED, HARD AND SCRATCH RESISTANT

OUR HIGH-END PVD TECHNOLOGY BRINGS OUR COLORS TO LIFE

When it comes to a good design strategy, the choice of colors plays a vital part. But not only the color, the quality of the finish is equally important. Especially in the world of bathroom and kitchen solutions and where surfaces ought to last for a long time, excellent, highly resistant finishes distinguish good products from great ones. GROHE's aspiration to always produce only the best drove us to choose a special technology that assures, not simply the best, most brilliant colors, but a durable coating of the highest quality. Our aim: to offer our consumers long-lasting water enjoyment. Next to the resistance of the material, it was also about the look of the color itself: we wanted to make Brushed Hard Graphite as dark grey as possible and give our golden finishes the brilliance they deserve. That was the task for our technology team. In close collaboration with the GROHE design team, they achieved exceptional results working with a great new technology: PVD.

GROHE PVD

10 x more scratch resistance
3 x more surface hardness

GROHE WATERSYSTEM

Water is the source of life, fresh, free-flowing and essential. Our tailored drinking experience of purity and convenience will turn water into a source of health and enjoyment in your home.

30 382 000
GROHE Blue Pure
Minta Starter Set

GROHE BLUE PURE FILTER FAUCETS

PURER TASTE, PURE ENJOYMENT

Add great taste to your kitchen, effortlessly, with a GROHE Pure Blue Filter faucet. GROHE Blue Filter faucet technology turns tap water into great-tasting filtered drinking water, removing chlorine and other impurities that can impair taste. Separate internal water ways keep filtered and unfiltered water separate at all times. The GROHE filter fits easily under your sink, and the faucet still offers all the usual functionality of a standard kitchen faucet. Put pure, refreshing, filtered water at the heart of your kitchen with a GROHE Blue Pure faucet.

GROHE BLUE BWT FILTER TECHNOLOGY

The most precious resource in the safest hands.

Tap water is now transformed into safe, pure refreshment, using the innovative GROHE Blue Ultra-Safe product range. GROHE Blue Ultra-Safe filters the water with technology supplied by BWT and then cools it down to the ideal temperature for you to enjoy. The GROHE Blue Ultra-Safe filter removes bacteria and purifies the water by taking out chlorine and other unwanted substances to ensure the safest and freshest drinking experience.

GROHE BLUE ULTRASAFE FILTER DETAILS

GROHE BLUE ACCESSORIES

Make the most of having delicious chilled, filtered water on faucet with our range of GROHE Blue accessories. From replacement filters for all GROHE Blue faucets, to CO₂ cartridges for GROHE Blue chilled and sparkling, plus our own range of branded GROHE water glasses and carafe, you'll find all you need to enjoy your seamless supply of cool, fresh drinking water in your home.

THE INDIVIDUAL CHOICE OF FILTRATION FOR PERFECT TASTE

For our GROHE Blue system we have worked with BWT, Europe's leading filtered water professionals, to ensure that our system produces an unparalleled, refreshing drinking experience. Our high-performance filters apply a 5-step filtration process to remove even the smallest particles from tap water, while leaving behind all the important minerals that benefit your health and provide pure taste.

ACTIVATED CARBON FILTER

If you live in a soft-water area, the activated carbon filter is right for you. It improves the taste but leaves the carbonate levels in the water untouched.

MAGNESIUM+ FILTER

For the best taste and health benefits, the magnesium+ filter is the ideal choice. It adds up to 35 mg magnesium to each liter of water, helping you get enough of this essential mineral while delivering the best tasting tea and coffee possible.

S-, M- & L-SIZE FILTER

The S-, M- & L-Size filters use a 5-step filtration process to remove even the slightest trace of impurities from the water – while retaining all the important minerals that benefit your health. The filter also fulfills another essential function: By filtering out limescale it ensures that the cooler can perform perfectly over its long lifetime.

GROHE PREMIUM LIFESTYLE COLLECTIONS

At GROHE we understand that your kitchen is a reflection of you. It's more than just a space to cook and clean – it's where you express yourself, enjoy yourself and even stretch yourself. That's why we have created a range of products that allow your inner home chef to shine, with professional-grade functionality that won't let you down, tailored features to help you perform better and intelligent design that reflects your personal taste. With GROHE Premium Lifestyle Collections your kitchen can be as individual as you are.

DESIGN YOUR KITCHEN WITH COLOR AT ITS HEART

Bring your kitchen to life with the new GROHE Colors. Inspired by world-wide color trends, GROHE now offers ten color finishes on a selection of kitchen faucets and sinks, helping you design a space that is tailored to your individual tastes and needs. From warmer, organic shades like Warm Sunset to more urban, architectural finishes like Brushed Graphite, GROHE has the finish that is right for your scheme. Choose a color with total confidence that your faucet and sink will work together harmoniously in a Perfect Match. With GROHE Colors you have the freedom of choice to create a kitchen that has as much color as the rest of your life.

GROHE MINTA

A stylish, minimal kitchen doesn't mean compromising on performance. The first thing you'll notice about GROHE's MINTA faucet is its sleek, clean silhouette, perfect for a contemporary kitchen. But what you'll enjoy day after day is its fantastic flexibility. With a pull-out spray head with dual spray control it makes cleaning, rinsing and prepping easy, letting you get the most out of your kitchen.

GROHE ZEDRA

The reinvention of a legend brings design flair and innovative operation to your kitchen – the new GROHE Zedra. With an elegantly fluted body the Zedra offers intuitive, tactile operation and great features such as lead and nickle free water flow. The pull-out spray is ideal for rinsing veg or the sink itself – you can select from three spray types according to the job in hand – while water consumption is reduced by up to 75 % without compromising performance. When finished it retracts easily into place thanks to the Magnetic Docking system. The range has a model to suit every need, from a SmartControl version to a pillar faucet with filter. Available in two finishes, this sleek, sophisticated faucet puts you in control.

GROHE ZEDRA TOUCH

Put the sweeping, sensual power of water at the center of your kitchen with the Zedra Touch. Zedra's distinctive fluted swivel spout and beautifully tactile lever combine ergonomic design with visual flair. The addition of GROHE's EasyTouch technology enables you to also control the water flow with just one touch. Choose your Touch function in the standard-version with an integrated mixing unit or upgrade with an under-sink Grohtherm Micro thermostat for perfectly controlled warm water and no danger of scalding.

GROHE ATRIO

The pared back, carefully considered lines of GROHE Atrio create a modern icon for the kitchen. With a slim brass body and sculptural cross handles, it will add architectural style to your scheme. Its high, swivel spout leaves lots of space for filling large pots and creates a more flexible working area, with smooth, precise volume and flow control guaranteed. Available in three durable and desirable finishes – Chrome, SuperSteel and Brushed Hard Graphite – this elegantly minimalist design is a future kitchen classic.

GROHE EUROSMART

Create a kitchen that the whole family can take pleasure in with the new GROHE Eurosmart. Effortless control, unrivalled performance and temperature-safe operation combine in a sleek contemporary design. The solid cylindrical body, the elegant curve of the spout – the new Eurosmart range looks great while offering huge versatility. In a variety of two heights, with a useful swivel spout and the option of our water-saving GROHE EcoJoy feature or the energy-saving cold-start cartridge GROHE SilkMove ES, Eurosmart is bound to fit in with your busy family kitchen.

Take your kitchen to the next level with the Eurosmart pull-out kitchen faucet. Equipped with the basic features of Eurosmart and adding a functional pull-out dual spray, Eurosmart pull-out will help you do your daily kitchen tasks with just tip of your finger. The pull-out dual spray gives you a greater operating radius of the faucet while offering easy switching between two sprays. The EasyDock mechanism guarantees easy retraction and smooth docking for your spray head, every time. Eurosmart pull-out comes with a shiny chrome surface or a matt SuperSteel finish to fit your kitchen perfectly.

GROHE BAULINES

Stunning simplicity defines the GROHE Bau. The cylindrical spout creates a lightness of design ideal for architectural schemes without compromising performance. The comfortable height and smooth turn mechanism ensures vital flexibility. The range variety offers a well-suited faucet for your classical, contemporary or cosmopolitan kitchen.

GROHE BAULINES

Water is used for cooking the world over. We need running water in the kitchen up to 90 times each day. We take it so much for granted that we often don't think of water when we hear the word 'kitchen'. We think of well-filled refrigerators, aromas wafting from the oven and of tables laid ready for dinner. But we forget what works hardest in the kitchen: the kitchen faucet. Something that is used this frequently must be durable – and since kitchens are increasingly becoming living spaces, it also has to look good. That's why ergonomics, functionality, aesthetics and durable finishes are so important in GROHE kitchen faucets.

GROHE KITCHEN SINKS

Add up how much time you spend at your kitchen sink. Filling pots, preparing veg, washing up after a big meal. It's a place you will stop at countless times each day, so why not choose a sink that exceeds your needs in terms of quality, design and features?

GROHE sinks have been designed to fit every type of kitchen scheme, with a range of innovative, modern designs perfect for your space. You can choose between a sleek, hardwearing stainless steel model or a super-durable composite available in two contemporary colors. You will find compact models with integrated drainers, large double sinks for when you need to spread out, and chic built-in sinks that fit flush to your worktop.

With features like the GROHE QuickFix system and reversible designs as standard, you can have your new GROHE sink installed in minutes with no fuss or hassle. We are also confident that you will love the special features on offer, like the automatic waste that means never plunging your hand into dirty water again. Thanks to GROHE Whisper technology you can even be sure that this will be your quietest sink ever – for composite sinks the material itself reduces the noise from water flow and for GROHE stainless steel sinks special integrated insulation achieves the same effect. With a sink from GROHE you'll notice the difference, making every time you use your sink less of a chore.

SINK AND FAUCET IN PERFECT HARMONY

Everything about the GROHE range of sinks has been designed for a perfect fit – with your faucet, with your kitchen, with your lifestyle. All of the sinks have been designed to be paired effortlessly with our kitchen faucets and watersystem, both in terms of design and practicality, with comfortable proportions and no splashing.

Whatever the design of your kitchen you will find a GROHE sink that complements it beautifully. You can choose between a sleek, hardwearing stainless steel model or a super-durable composite available in two contemporary colors, both perfectly matched to new GROHE color options. The range includes topmount models, flush-mounted, under-mounted and flat-edge models, with numerous different designs, from timeless to crisply minimal. Whether you are kitting out a compact kitchen or looking for a centerpiece sink for your island unit, GROHE has a model that is just right, and at a price point that suits.

To make it even easier to pick the right sink and faucet for you, we've also created four pre-packed sink and faucet bundles, so you can buy your ideal sink and faucet together, hassle-free. Encompassing our most popular lines, you can select a Bau, Eurosmart, Concetto or Minta sink bundle, making design, purchase and installation an even smoother, swifter process.

QUALITY THAT LASTS A LIFETIME

GROHE's reputation for quality of course extends to every sink in our range. With steel thicknesses ranging from 0.6 mm on the entry price segment to 1 mm on the premium ranges, each stainless steel sink uses steel above industry standards, and our patented brushing process creates a super-smooth surface that is easy to clean. Our composite sinks produced in a special computercontrolled casting process use 76 % quartz mixed with acrylic resin for a super hardwearing material offering superlative durability and function, with smooth pore-free surface that is resistant to heat, dents scratches and stains, hygienic and easy to clean. For additional reassurance, each GROHE sink comes with a five year warranty, just like our faucets.

FEEL THE BENEFITS INNOVATIVE FEATURES, FINISHES AND FUNCTIONS

We can't claim to make washing up a joy, but thanks to the smart, useful features of every GROHE sink, we certainly believe that we can make your sink somewhere you are happy to spend some time. With a GROHE sink, cleaning is easier, draining the bowl can be done remotely, and even the sound of the water running is minimised. Just select your ideal size and style – installation is effortless and the benefits speak for themselves.

Spacious bowls

All GROHE kitchen sinks feature spacious bowls meaning you have lots of room to maneuver and enough space for washing large pots with ease. Thanks to our innovative manufacturing technique, all of our stainless steel sinks offer a generous depth of min. 16 cm while the innovative computerized casting technique allows our composite sinks a generous depth of even at least 20 cm.

Pre-punched faucet holes

Many models come with pre-punched faucet holes, meaning no additional tools are required and some sinks are reversible and can be installed as either left- or right-handed option.

Overflow

The overflow, available on all GROHE sinks, avoids any spillage of water in case the faucets are inadvertently left open. The perimetric solution available on some models improves the look, thanks to its squared-out and essential shape.

Waste fitting with remote control

GROHE sinks are equipped with a 3.5" waste fitting and practical strainer plug that prevents solids and leftovers from flowing away with the waste water. The steel cap available on some models adds elegance to the bowl and hides any residue collected in the underlying basket.

Siphon included

For a quick and hassle-free installation each sink comes with an under-sink siphon complementing the scope of delivery and guaranteeing an ALL IN ONE solution.

Water drainage

Drainage from the bowl's base and drainers is an important feature, always well cared for on GROHE sinks. In the squared-out, flat-bottomed sinks, good drainage is ensured by the elegant diamond-shaped creases that make the water flow away more easily.

GROHE STAINLESS STEEL SINKS

INNOVATIVE FEATURES, FINISHES AND MOUNTING TYPES

Customize your kitchen space by choosing the perfect GROHE sink for you. Our K-series range of stainless steel sinks covers every size, configuration and price point, so you're sure to find your perfect fit. The range includes 1, 1.5 or 2 bowl options. Various mounting types from built-in to undermount are available for your individual taste. Make it your very own central kitchen hub with our accessories – perfectly matching our sinks for your ultimate comfort.

We are also confident that you will love the special features on offer, from the noise-reducing GROHE Whisper insulation to the automatic waste that means never plunging your hand into dirty water again. With a sink from GROHE you'll notice the difference, making every time you use your sink less of a chore.

FINISHES

AISI 304

On every sink model GROHE uses the AISI 304 stainless steel, exceeding the quality standard of the industry. Thanks to its high percentages of chrome and nickel it contains, AISI 304 steel gives a particularly bright finish and makes the products enduring against rust and corrosion.

AISI 316 (marine steel)

With AISI 316 available on the K400+ series, GROHE offers a durable solution even for regions with salty, rust-causing climate. Also known as the "marine steel", AISI 316 is mainly used in the shipbuilding or chemical industries. Famous for its high percentages of chrome, nickel and molybdenum, the steel is extremely resistant to rust and corrosion and even acids or chlorine.

Patented brushing technique (GROHE satin finish)

The K300 – K1000 series are treated with special vegetable fibres (Tampico) that give the sinks the characteristic extrafine satin finish that is highly elegant and functional. GROHE's patented brushing technique creates a stainless steel surface that is smoother and less porous than many other brands, making cleaning your sinks easier and significantly enhancing its durability.

INNOVATIVE FEATURES

GROHE StarLight

All GROHE sinks use stainless steel graded above the industry average, so you can be confident of their quality and durability. Our innovative brushing technique means that the sparkling steel surface is ultra smooth for easier cleaning.

GROHE QuickFix

Install your sink swiftly and easily thanks to the GROHE QuickFix system (kit supplied). With two pre-punched faucet holes most of our sinks are easily reversible, giving you the flexibility you need for any design scheme.

GROHE Whisper

Shhh! A special insulation on the underside of the sink means that noise from running water and handling pots and pans is reduced to a minimum.

MOUNTING TYPES

Topmount

Traditional built-in with a vertical 8 mm edge.

Undermount

Sleek and contemporary, ideal for installation under the worktop.

Flat-edge

An original edge with an inclined 3 mm high profile, matching an extreme elegance with the ease of installation.

Flush-mount

The product is sunk 1,5 mm deep recess making it perfectly flush with the worktop. Alternatively, it can be installed on the worktop.

GROHE STAINLESS STEEL **K1000 SERIES**

A superior sink designed for the demands of contemporary kitchens, the K1000 features a welded design with a diamond-shaped bottom, as well as a generous draining area. Its architectural style is matched by useful features like an included siphon and automatic waste fitting. It can be flush-mounted or built-in.

GROHE COMPOSITE SINKS

INNOVATIVE FEATURES, FINISHES AND MOUNTING TYPES

Customize your kitchen space by choosing the ideal GROHE sink for you. Our K-series range of composite sinks covers every size, configuration and price point, so you're sure to find your perfect fit. The range includes round and square models in two different colors – Granite Black and Granite Grey. Select from 1, 1.5 or 2 bowl models, with or without and integrated drainer, with dimensions suited to kitchens from the spacious to the compact. Plus choose between a neat top-mounted model or a sleek, minimalist under-mounted version which sits under the worktop.

FINISHES

AT0 I Granite Grey

AP0 I Granite Black

QUARTZ COMPOSITE

Your sink can cope with the daily demands of even the busiest kitchen thanks to our innovative composite material. Using 76 % quartz – the hardest part of granite – mixed with acrylic resin, GROHE composite sinks are the toughest around. This hardened composite material is resistant to scratches, dents, stains, cracks and heat up to 280 °C. The smooth surface is easy to clean and 100 % food safe for total peace of mind.

Each GROHE composite sink is produced using a computerized polymerization casting process which guarantees a seamless finish and total uniformity of color throughout. What's more, the composite won't fade in UV light, meaning its certain to stay looking as good as the day you bought it.

MOUNTING TYPES

Topmount
A traditional built-in look with a vertical 8 mm edge. Installation is with clips (except for models 31 653, 31 654, 31 655 and 31 648 – silicone only).

Undermount
Installed under the worktop for a sleek, contemporary look.

Waste fitting for easy handling
Thanks to the automatic waste your hands will stay clean and dry. For even more convenience, upgrade your sink with the stylish push-excenter (see page 202).

INNOVATIVE FEATURES

GROHE QuickFix

Install your sink swiftly and easily thanks to the GROHE QuickFix system (kit supplied). With pre-punched faucet holes most of our sinks are easily reversible, giving you the flexibility you need for any design scheme.

GROHE Whisper

Shhh! GROHE sinks reduce noise from running water and handling pots to a minimum, thanks to the dense mix of quartz and acrylic in our composite sinks.

Scratch resistant

Putting practicality first – made only from solid composite, these sinks are scratch resistant for a longer life.

Heat resistant up to 280 °C

Never hesitate to put down a hot pot again – GROHE composite sinks are heat resistant up to 280 °C for great durability.

Stain resistant

Because your sink has to be practical as well as beautiful, GROHE composite sinks are stain resistant for long-lasting good looks.

100 % food safe

Enjoy total confidence in using your kitchen your way – GROHE composite sinks are 100 % food safe, making prep easy and hygienic.

Non fading in UV-light

Let the sunshine in! Our composite material won't fade in UV light, keeping your sink looking pristine and the color-true.

Easy to clean

Your composite sinks is easy to keep clean so you will be able to enjoy its flawless finish for years to come.

Spacious bowls

All GROHE composite sinks feature seamless bowls with a generous depth of at least 20 cm maximizing space for washing large pots and filling vases with ease.

GROHE COMPOSITE K700 UNDERMOUNT SERIES

Create a sleek, minimalist look for your kitchen with the K700 undermount series. Mounted below the worktop for a clean, seamless look, this style is an ideal fit for modern, architectural kitchens. These single bowl sinks come with clips to make mounting easy and an optional automatic waste fitting with push-to-open technology. All sinks in the K700 undermount series can also be installed top-mounted for a more traditional look.
